

Availability of data types by year

Updated: May 2025

Data available by year may not be available at every geographic region for that year. See separate table for geographic regions.

IECAM did not add FY2024 service data and 2023 demographic data to its database. Instead, it added two spreadsheets to its website that resemble what users have received when they chose “all data” for demographics or early childhood service types in searches on the IECAM database. You can find them below.

[FY2024 service data](#)

[2023 demographics](#)

Excel spreadsheets for CCAP data (FY2020–2024) are available on the IECAM [CCAP data description page](#).

The table below indicates what data are available on the database.
